

MATH WORD PROBLEMS (ADDITION)

1. **Maple Treats:** Sofia collected 3 maple leaves on her walk. Liam found 4 maple leaves. How many maple leaves did they collect together?

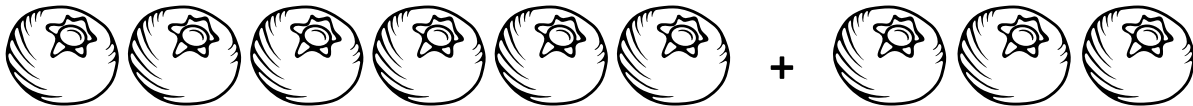

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

2. **Hockey Practice:** There were 5 players on the ice at hockey practice. 2 more players joined them. How many players are on the ice now?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

3. **Berry Picking:** Maya picked 6 blueberries and her brother Ethan picked 3. How many blueberries did they pick in total?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

4. **Building a Snowman:** Liam rolled 2 snowballs for the snowman's body. Then he rolled 1 more for the head. How many snowballs did he roll altogether?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$
