

MEASUREMENT WORD PROBLEMS

Match the number sentence and correct label to each word problem.

Thor chased his ball 10 feet the first throw and 27 feet on the second throw. How far did he chase the ball?

Chloe's shirt was 24 inches long. Her sleeves were 8 inches long. How much shorter were her sleeves?

Matt and Logan were measuring the fish they caught. Matt's fish was 27 centimeters long and Logan's was 43 centimeters. How long were the fish all together?

$27 - 10 = 17$

$10 + 27 = 37$

$27 + 43 = 70$

ft.

cm.

$24 + 8 = 32$

$24 - 8 = 16$

$43 - 27 = 16$

in.
