ADDITION AND SUBTRACTION

Answer the following word problems to help you practice adding and subtracting multi-digit numbers. Don't forget to show your work.

1

Sara and John are collecting stamps. Sara has 1,459 stamps and John has 672 stamps. How many stamps do they have total?

2

Last month, a pet food store sold 3,710 bags of dog food and 2,988 bags of cat food. How many more bags of dog food than cat food did they sell?

3

Nadia and Cam make designs using dominos. Nadia uses 5,721 dominos and Cam uses 4,938 dominos. How many dominos do they use in all?

4

Alex and John are working out a math problem together and they each get a different answer. Who is correct? What did the other person do wrong?

Alex: $1,891 - 712 = 1,179$

John: $1,891 - 712 = 5,229$
