

JELLY THE JELLYFISH

Jelly the jellyfish lived in a bright, blue ocean. She loved swimming slowly through the water and looking at the colorful coral and shiny seashells. Every day, Jelly noticed something new. She watched the sunlight sparkle on the waves and the tiny fish that swam in patterns like rainbows. Jelly loved the beauty of the ocean and often shared it with her friends. She would point out pretty shells, swaying seaweed, and the glittering sand. Jelly felt happy when she noticed the little wonders of the ocean. She learned that taking time to see and enjoy nature made every day special.

- 1 Who is the story about, and what does Jelly love doing?

- 2 Why do you think Jelly felt happy in the ocean?

- 3 Have you ever seen something in nature that made you feel happy?
