

THE CURIOUS OWL

Olly the owl lived in a big, tall tree. He loved to explore the forest at night. One evening, Olly saw a shiny, red object on the ground. He flew down to take a closer look.

It was a little toy car! Olly had never seen a toy car before. He pushed it with his wing and watched it roll across the leaves. Olly was very curious and wanted to learn more about everything in the forest. Every night, Olly would find new things and watch the animals play. He loved asking questions and discovering new things. The other animals liked to share their stories with Olly because he was so interested in learning.
