

The Amazing Octopus

Read the story. Then answer the questions.

Name: _____

Date: _____

The octopus is one of the ocean's most remarkable creatures. It can change color to hide from predators, squeeze through tiny spaces because it has no bones, and even use tools. Scientists consider the octopus one of the most intelligent animals in the sea.

1. What is the main idea of this passage?

2. Name one way an octopus hides.

3. Why can it fit through tiny spaces?
