A Place Where I Like To Relax

Part 1. Read the paragraph.

There is a small park near my home where I like to relax. It has many trees, flowers, and comfortable benches. I usually go there after work or at the weekend. Sometimes I read a book, and sometimes I simply enjoy the quiet atmosphere. The fresh air helps me forget my stress. It is my favourite place because it is peaceful and beautiful.

Part 2. Write about a place you would like to relax.
