My Favourite Evening Activity

Part 1. Read the paragraph.

My favourite evening activity is reading books. After I finish my homework, I sit on the sofa with a good storybook. Sometimes my younger sister reads with me, and we talk about the story together. Reading helps me relax after a busy day at school. I always learn new words and interesting facts from my books. Reading is my favourite evening activity because it is peaceful and enjoyable.

Part 2. Write about your favourite evening activity.
